

## **"SCRUFFY EAGLE" WEBSITE UPDATES LIST - Part 2**

Dates and details of updates to this website during July thru December, 2010.

*NOTE: This website gets restructured, and documents shuffled from place to place, whenever the whim strikes me or the perceived need yanks on my sleeve. Therefore, links in the update list become outdated and might not be accurate beyond when they're in the most recent update date's entry. I recommend using the Main Page of the website (or topic index pages) - the links on those are always up to date. Also, if anyone wonders why I'm posting this as a .pdf document instead of HTML, here's the explanation: It's much easier to type stuff in this way; i.e., saves a LOT of effort.*

### **July, 2010**

#### **07/10/10:**

- 1 ) Updated the "[SESSIONS - BANDS I SAT IN WITH](#)" page.  
*Way overdue updating, re. sitting in with the "Bill Hassey Orchestra": on 06/26/10 & on 07/04/10, and "Melody Best" on 07/03/10.*
- 2 ) Updated the lyrics & link for the song, "[FOR EILEEN](#)" (v100614).  
*This was the posting of a way overdue updated version of this song. I was pleased to find at soundclick that in the 1 day since I posted it, it's already climbed to #44 (out of thousands) on the charts. It's something people should know about!*
- 3 ) Updated item descriptions & links on the "Main" page & the "Music & Art" page.  
*I realized tonight that there's some way-overdue updating, re. my song entries & links. I ran out of time, and couldn't finish - so, I need to return to doing this in the very near future!*

#### **07/11/10:**

- 1 ) Updated the "[SESSIONS - BANDS I SAT IN WITH](#)" page.  
*Re. sitting in with the Robby Vee on 07/10/10.*
- 2 ) Updated the lyrics & link page for the song, "[My Poor Baby](#)" (v040218).  
*The song has now been re-posted at soundclick.com, and now it will have a .PDF page about it instead of a .HTML page.*

#### **07/25/10:**

- 1 ) Updated the index page entries & the document for the song, "[Forget About Me](#)".  
*I wasn't sure if she was still using "Katy", so I entered "Kathleen" on the page. Now that I know "Katy" is still accurate, I've amended it to fit.*
- 2 ) Updated the index page entries & the document for the song, "[One Among Many](#)".  
*I'd failed to update my website page to show a recorded copy was now available for hearing online, when I posted the song at soundclick.com. Now, that's attended to, and visitors to my website can go listen to a recorded copy of it.*
